INTRODUCTION

Role and Functions

The Sansthan was established in 1970 on the recommendations of the Kendriya Sanskrit Parishad as an autonomous organisation, registered under the Societies Registration Act XXI of 1860 for the development and promotion of Sanskrit in the country. It functions as an apex body for the propagation and development of Sanskrit and assists the Ministry of Education in the formation of various plans and schemes for the development of Sanskrit studies. It has also assumed the role for effective implementation of various recommendations made by the Sanskrit commission set up by the Govt. of India, Ministry of Education, in 1956 for propagation and development of Sanskrit language and education in all its aspects.

The major objectives of the Rashtriya Sanskrit Sansthan as indicated in the Memorandum of Association are to propagate, develop and encourage Sanskrit learning and research and to serve as a central administrative and coordinating machinery for the management of all the Kendriya Sanskrit Vidyapeethas established or taken over.

Programmes and Activities

For the realisation of the objectives, the Sansthan undertakes the following programmes and activities :

Conducts teaching of Sanskrit on traditional lines at secondary, under-graduate, graduate, post-graduate and doctorate levels.

Conducts teachers' training at graduate and post-graduate levels.

Conducts examinations at secondary, graduation and post-graduation levels.

Conducts and coordinates research work in various disciplines of Sanskrit learning.

Teaching:

Teaching is conducted at Shastri and Acharya levels on the basis of a syllabus drawn up by the Sansthan in six of the seven Vidyapeethas, which are constituents of the Sansthan. Sanskrit institutions, managed by voluntary organisations and affiliated to the Sansthan, also impart teaching with the same syllabus. In all the Vidyapeethas there is a two-year buffer course of plus-two level called Prak-Shastri to faciliate students who come from non-traditional streams to fit in the traditional system of Sanskrit education adopted by the Sansthan.

In addition, in two of the Vidyapeethas, secondary level teaching on the 10+2 pattern is also under taken. These classes act as feeder for our degree classes.

Teachers' Training:-

In six of the seven Vidyapeethas, teachers training of one year's duration, with emphasis on practical teaching, is conducted, leading to the award of Shiksha Shastri Degree, which is equivalent to B. Ed. In two Vidyapeethas at Delhi & Tirupati teachers' training at post-graduate level, leading to the award of Shikshacharya degree, equivalent to M. Ed., is also conducted.

Research :

CHAPTER II

HIGHLIGHTS OF THE YEAR

A. Printing of Syllabus:

The syllabus for the various courses of the Rashtriya Sanskrit Sansthan is unique in ways more than one. Though it follows the traditional system of education, it has also incorporated the essential aspects of the modern education. In this respect, it has followed the recommendations of the Sanskrit Commission. While laying stress on Sanskrit, it has given due place not only to English, Hindi and regional languages of India but also to the modern subjects like social studies, Mathematics, Science, History, Geography, Sociology and Economics from Prathama to Shastri, corresponding to Middle school to B.A. in the modern system of Education. While the Acharya courses in different subjects are typically traditional, the courses upto Shastri are in agreement with the modern system of Education, qualifying our graduates for services in the modern walks of life.

The syllabus and courses of studies have undergone several revisions after it was first formulated in 1970. It was recently revised in 1985 and printed for use during 1986-87 and onwards. During this year, it has been printed in five parts.

Part-I Prathma and Purva-Madhyama.
Part II Uttarmadhyama/Prak-Shastri
Part-III Shastri & Acharya
Part IV Shiksha Shastri
Part V Shikshacharya

B. Youth Festival at Jammu

The Sansthan organised another youth festival in January 1986 in Ranbir Kendriya Sanskrit Vidyapeetha, Jammu, where selected students from all the Kendriya Sanskrit Vidyapeethas under the Sansthan, numbering about 100, asssembled. Besides the academic programmes like debate in Sanskrit, essay competition Antyakshari etc. there were cultural programmes by the individual Vidyapeethas reflecting the regional taste and aptitude of the students.

It was participated by some officials of the Sansthan as well as by some scholars from outside, who acted as judges in various competitions.

This was also an occassion for the meetings of the Principals of the Kendriya Sanskrit Vidyapeethas and for the Research Committee meeting.

Scholarships:

The Sansthan operates three schemes of scholarships on behalf of the Ministry of Education. These are :—

(i) National Scholarship for Shastri and Acharya at the rate of Rs. 75/- per month and Rs. 100/-per month respectively.

(ii) Research scholarship for the students of traditional pathshalas at the rate of Rs. 300/- per month.

(iii) Post-Matric scholarship for students from Intermediate onwards upto Ph. D. at the rate of Rs.50/-, Rs.75, Rs.100 and Rs.300 per month respectively.

For some years these schemes have been compressed into two, comprising Intermediate, Shastri/B. A. and Acharya/M. A. on the one hand and Vidyavaridhi/Ph. D. on the other.

A major portion of the amount of Rs. 9.5 lakhs is paid to research students for Vidyavaridhi and Ph. D. in several Sanskrit and general Universities.

A Break down of the total award for 1985-86 is given below:

Vidya Varidhi	25
Ph. D.	18
Acharya	100
M. A.	62

D. Work study in the Sansthan:

The Ministry of Education had appointed a team of experts for the work study in the Sansthan. The report is under consideration.

E. Sanskrit Day

The Sanskrit Day was organised on Raksha Bandhan Day in August jointly by the Ministry of Education, Rashtriya Sanskrit Sansthan and Kendriya Sanskrit Vidyapeetha, Delhi. Apart from a report by the Ministry and the Sansthan towards the propagation of Sanskrit, which is the usual feature of the Sanskrit Day every year, the first-ever Sanskrit film Adi Shankaracharya was shown to the learned public assembled there.

F. Vedic Sammelan.

During the year 1985-86 four regional vedic sammelans were convened by the Sansthan as per the orders of the Ministry at Ujjain, Poona, Ahmedabad and Vijayawada. The Vijayavada Vedic Sammelan was inaugurated by Sringeri Sankaracharya, His Holiness Shri Bharti Krishna Tirth Swami ji. This is a new feature recently started, since there was only one annual vedic sammelan previously convened by theMinistry every year.These regional vedic sammelans are intended to bring together those vedic scholars who are not able to take part in the annual vedic sammelan which is held sometimes at far off places.

G. Seminars

The Sansthan in collaboration with the ICPR has been holding seminars on traditional Indian philosophies viz Nyaya, Mimamsa and Kashmir Saiva Darsana. During the year a Minmamsa seminar was convened at Tirupati wherein scholars from all parts of the country, both modern and traditional, were brought together for a healthy dialogue between the two schools of scholars. These deliberations have all been recorded and there is a proposal to edit and bring them into a book form for the benefit of researchs cholars.

H. Publications

A special issue of the research journal Sanskrit Vimarsha, to commemorate the memory of Smt. Indira Gandhi, was brought out by the Sansthan. This and another publication, proceedings of 5th World Sanskrit Conference held at Varanasi in 1981 were both released at a function held in the National Museum under the Chairmanship of Smt. Sushila Rohtagi, the then Minister of State for Education. These two volumes were released by the Hon'ble Lok Sabha Speaker Dr. Balram Jakhar. As per Sansthan's policy of bringing out "out-of-print text-books" for making available to the students, this year one of the important Mimamsa works called the Bhattadipika of Khanda Deva was brought out by photo offset process in four volumes.

Popularisation & Modernisation of Sanskrit :

Sanskrit is a classical language and it is hardly likely that all the students and public in general should be interested in learning it.

Though a few students and persons with esoteric taste learn it without much physical facility and temptation provided to them, we have to make a special effort to pupularise it.

We may mention that our Correspondence Course is appropriate step in this direction. Tirupati Vidyapeetha conducts evening classes for the general students and public. If all Vidyapeethas adopt some sort of non-formal teaching, Sanskrit may get more popularity. Efforts are also made to produce children literature in Sanskrit and also some Sanskrit compendia for adults. These books are under print.

As regards modernisation of Sanskrit teaching, little progress has been mad e. But it is in the non-formal education that the methods of Sanskrit teaching may be modernised and results may be achieved in short time. The traditional method, which is the main ideal of the Sansthan is a sort of hinderance in learning the Sanskrit language quickly. As a matter of fact, nothing has been done towards the modernisation of Sanskrit.

CHAPTER III

EXPANSION PROGRAMME

The Rashtriya Sanskrit Sansthan was established in 1970 with five constituent Vidyapeethas at Delhi, Tirupati, Jammu, Allahabad and Puri. The sixth Kendriya Sanskrit Vidyapeetha was established in Kerala in July, 1979 by taking over a Private Sanskrit Institution. Another Kendriya Sanskrit Vidyapeetha was established in Jaipur (Rajasthan) in July, 1983. The next Kendriya Sanskrit Vidyapeetha is expected to start functioning from July, 1986 at Lucknow.

The Kendriya Sanskrit Parishad resolved in 1970 that the Rashtriya Sanskrit Sansthan should establish more Kendriya Sanskrit Vidyapeethas and coordinate their work. In implementing Parishad's recommendations, efforts are being made to establish Kendriya Sanskrit Vidyapeethas at several other places. As a consequence of these efforts about 10 acres of land have been obtained in Lucknow for the purpose of establishing a Vidyapeetha there.

There has been persistent demands from the State Governments for the establishment of Kendriya Sanskrit Vidyapeethas under the auspices of the Rashtriya Sanskrit Sansthan. The Government of Madhya Pradesh has agreed to provide a plot of land for the establishment of a Kendriya Sanskrit Vidyapeetha at Bhopal.

The Shasi Parishad and the General Body of the Sansthan have time and again underscored the need for opening Kendriya Sanskrit Vidyapeethas in the eastern States of India. With this end in view the possibility of establishing Vidyapeetha at Calcutta is being considered in consultation with various organisations and scholars in WestBengal. At present the Asiatic Society, already an institution of national importance, has sought affiliation with Sansthan for courses from Prakshastri to Acharya. Also the possibility of establishing. Vidyapeethas in Assam and Manipur is being explored. For this purpose, the selection of site with due regard to the availability of physical facilities, possibility of providing infrastructure and the availability of sufficient number of students is under examination in consultation with the Departments of Education of these two Governments.

The Shikshacharya course has been introduced in the Kendiy Sanskrit Vidyapeethas of Delhi and Tirupati. Facilities for conducting research for the award of Vidya-Varidhi, equivalent to Ph. D. degree, exist in all the Vidyapeethas. The Sansthan is actively considering introduction of research at Post doctoral level for the award of Vachaspati degree, which is equivalent to D. Litt. of a University.

Every year new private institutions seek affiliation with Sansthan for various coures of studies. The institutions affiliated to Sansthan during 1985-86 are placed at Annexure 'C'. This year a Research Institution has been given affiliation for conducting research in Vedas and allied subjects.

CHAPTER IV

CORRESPONDENCE COURSE

The Rashtriya Sanskrit Sansthan has established a separate Unit under the Academic Section exclusively for Sanskrit teaching through correspondence. For more than 10 years this section has been organising Sanskrit Language teaching at preliminary stage through correspondence in both English and Hindi mediums. This course is divided into two levels of 21 lessons each and is covered through Correspondence in a maximum period of two years. Two lessons are despatched to the registered students every month and students, after grasping the lesson, are expected to answer the questions given in the response sheet at the end of each lesson. These response-sheets are returned by students to the Head-quarters Office of the Sansthan, where they are evaluated by the evaluators, and the corrected response sheets are returned to the students for their guidance.

During the year 1985 i.e. from January to December, 1985, 477 students were registered for these two courses as per details given below :

Ist year course	*No. of students*
(a) Hindi medium	144
(b) English medium	157
IInd year course	
(a) Hindi medium	80
(b) English medium	96
Total	477

Since the constituent Kendriya Sanskrit Vidyapeethas of the Sansthan are working as contact points, it has been decided to hold contact programme in these Vidyapeethas, where the students of the region will be invited to have a face to face contact with teachers, so that difficulties encountered by them during study through Correspondence can be removed.

This course is being organised free of cost but, in order to ensure that only genuine students are enrolled, a token annual fee of Rs.15/- per student in India and US$ 10 per student abroad is charged from the aspirants.

In order to make these courses more popular and to enable a larger number of aspirants to avail of this facility, a number of steps were taken by the Sansthan : a wide publicity was made in English and vernacular press through the Directorate of Audiovisual Publicity; letters were addressed to foreign Embassies and Consulates in Delhi and to Vice-Chancellors of the Universities in India, and so on. As a result of these efforts, in addition to young students, a number of high ranking officers and people in various vocations have registered their names with the Sansthan and are learning Sanskrit through the correspondence course.

Those who complete these courses successfully get a certificate entitled 'Sanskrit Pravesha'.

CHAPTER V

CURRICULUM, EQUIVALENCE AND RECOGNITION

In the school section of our Kendriya Sanskrit Vidyapeethas at Jammu and Puri, the 10+2 pattern has been adopted. While the syllabus for various disciplines in Sanskrit is formulated by the Syllabus Committee appointed for the purpose, for modern subjects the syllabus prescribed by the Central Board of secondary Education has been adopted. The curriculum for Shastri is of the same standard as that prevalent in Indian Universities. A number of disciplines in Sanskrit are taught as separate subjects. That is, in addition to Sahitya and Vyakaran, subjects like Siddhanta Jyotish, Phalit Jyotish, Nyaya, Vedanta, Jain Darshan, etc. are also taught as separate subjects. In order to bring them on par with students reading in modern Universities, students of Shastri classes are also required to study modern subjects like English, Hindi, Sociology, Political Science, Economics, etc. For these subjects, courses of studies prescribed in Delhi University have been adopted, while for Shastric subjects the curriculum and syllabi are framed by different syllabus committees appointed for the purpose. At Acharya level facilities exist only for various Shastric subjects, the curriculum for which has also been framed on the advice of the Expert Committees. The teaching in all the constituent Vidyapeethas as also in the affiliated Institutions is carried out on the basis of the prescribed syllabus.

In case of teachers' Training, provision has been made both for the theoretical and practical training. Here again curriculum framed is of the same standard as is prescribed for the corresponding B.Ed. classes in Delhi University. The equivalence of the Sansthan's examination with those of the modern system of education is detailed below :

Prathama	(I II III)	Middle(VI, VII, VIII)
Purvamadhyama	I II	Matric (IX, X)
Uttarmadhyama	I II	Senior
and		Secondary (XI, XII)
Prak-Shastri		Intermediate
Shastri		B.A.
Acharya		M.A.
Shiksha-Shastri		B.Ed.
Shiksha-Acharya		M.Ed.
Vidyavaridhi		Ph.D.

A number of State Governments have recognised the degrees awarded by the Rashtriya Sanskrit Sansthan for purposes of employment (See Annexure—'D'). Likewise, the Association of Indian Universities, as also a number of Universities and Education Boards, have given recognition to the degrees awarded by the Rashtriya Sanskrit Sansthan for purposes of admission in higher classes. A list of such Universities and Boards which have recognised Sansthan's Degrees is given in Annexure 'E'. The annexure also indicates the equivalence prescribed by them to various degrees.

A scheme under which the teachers in Vidyapeethas will be asked to prepare text books for various standards and present them to the Sansthan for final approval is proposed to be launched. The idea is to bring out a set of books by the Sansthan's teachers themselves and publish them for the benefit of students studying in different Vidyapeethas.

CHAPTER VI

In addition to the management of the maintenance grant, the finance section of the Sansthan also arranged distribution of scholarship to various universities under the schemes of the Ministry. For this purpose, the Ministry had released a total grant of Rs. 9.50 lakhs, which was fully utilised in awarding scholarship and only a small unspent balance was left over.

CHAPTER VIII

VIDYAPEETHAS

The Rashtriya Sanskrit Sansthan runs seven Kendriya Sanskrit Vidyapeethas, the academic year starting from the month of July every year.

These Vidyapeethas are centres of learning. Teaching and research are conducted at six out of seven Vidyapeethas; from Prathama to Acharya and Vidyavaridhi at Puri and Jammu and from Prak-Shastri to Acharya and Vidyavaridhi elsewhere. Only the Allahabad Vidyapeetha is restricted to research for Vidyavaridhi and for publication.

Separate report in respect of each Vidyapeetha is presented below :

Kendriya Sanskrit Vidyapeetha, Tirupati

This Vidyapeetha was established in this holy town, Tirupati, in the year 1962 by the Central Government with the five most sought after and important objectives, namely:

To promote studies in shastras like Vyakarana, Purva and Uttar Mimamsa, Nyaya, etc.

To inculcate and encourage research activity both in traditional and modern methodology.

To procure and preserve manuscripts.

To publish unpublished works of importance.

To conduct evening Sanskrit classes.

This Vidyapeetha consists of four wings, viz. Pedagogy wing, Acharya wing, Research and publication wing and Library wing.

Pedagogy Wing

This wing was started in 1962 to train Sanskrit scholars who are appointed in higher secondary schools. This training is imparted purely in Sanskrit medium. More than thousand trainees have left this Vidyapeetha from 1962 onwards, having obtained B. Ed. degree called **Shiksha Shastri**. Every year the contingent of trainees represents many states.

Students and student-trainees discuss and speak on various topics in the science of education in weekly seminars conducted on every Thursday.

One Reader and six lecturers are on the faculty rolls of this wing

As per usual practice, training in Scout and First Aid was imparted in the month of September, 1985 and March, 1986. The educational tour was conducted in February, 1986.
